ABOUT

Passionate B.Tech Graduate specialized in Artificial Intelligence and Data Science with a honor by additional credits in course. I am equipped with a strong knowledge in data analytics, machine learning, and SQL. Proven track record in translating data into actionable insights for decision-making, optimizing efficiency through data-driven solutions, and managing end-to-end project lifecycles. Eager to leverage analytical skills and technical expertise to solve complex business problems and contribute to data-driven strategies.

TECHNICAL SKILLS

- Python
- Java
- Artificial Intelligence
- SQL - DBMS
- Django
- Machine Learning / Deep Learning
- PowerBi
- Ui-Path Studio
- Data Structures

EXPERIENCE

INTERNSHIPS

BEVYWISE NETWORKS INC - (Tirunelveli & USA) **June 2023 - July 2023**

During my intensive internship in **Machine Learning and Deep Learning**, I led the development of a **Vehicle Monitoring System**, overcoming challenges like low-quality images and inappropriate angles for recognition. The project culminated in a robust system proficient in **recognizing bus identification numbers and exploring license plate identification** for enhanced security and monitoring capabilities, showcasing resilient problem-solving skills.

EZOFIS - (Tirunelveli, India) **June 2023 - July 2023**

I worked as a Project Intern, developed an **AI Based Query Generator on Natural language input.** Used python as coding language, and developed a model to work as per the requirement. Received an Appreciation Certificate in return regards the projects.

TVS SENSING SOLUTIONS - Madurai, India **OCT 2023 - NOV 2023**

As a **Business Intelligence Analyst Intern**, I utilized **Power BI** for **stock-like data evaluations, overcoming integration challenges across diverse datasets**. Through innovative solutions and mapping techniques, I optimized organizational efficiency, showcasing the adaptability of BI tools in intricate data integration.

RAMCO CEMENTS LIMITED - Ariyalur, India **MARCH 2024**

AI intern at Ramco Cements, skilled in solving **sensor errors and enhancing efficiency through AI**. Experience includes developing algorithms and implementing automated systems for tasks like **cement bag counting**, driven by a commitment to innovate in manufacturing.

DATANERDZ.AI - Pudhucherry, India **DECEMBER 2024**

Mentored students in RPA using UiPath and Blue Prism, guiding workflow automation and real-world projects like invoice processing. Recognized for fostering technical growth.

OPTIVERSE ENTERPRISE PRIVATE LIMITED - Chennai, India **FEB 2025 - JULY 2025**

Worked as a Project Intern, worked in developing three phase of projects where i have covered **Front End and Backend Development, AI Model Development** for a Key Performance Analysis project, **ML Optimizer in Real Time Optimizer** project. Used python, PowerBI, HTML/CSS, Django, AI / ML. Credited with monthly stipend and certification.

EDUCATION

SCHOOL EDUCATION

- SSLC - 92 %
- HSC - 91 %

UNDER GRADUATE

B.Tech (Honors) Artificial Intelligence and Data Science
TOTAL CGPA **- 8.32**

AWARDS AND ACHIEVEMENTS

- I have achieved the remarkable feat of securing the **20th rank in the category 3** in the national level in the **NCAT exam in May 2024.**
- I secured the **THIRD PRIZE** at Technovista Project Expo for my project titled **"AI SQL Driven Insights"** This recognition underscores the project's innovation in the realm of AI-driven data insights.

PROJECTS

Vehicle Monitoring System

INDUSTRY PROJECT - BEVYWISE NETWORKS (TIRUNELVELI, UAE AND CANADA)

Description : Entry and Exit Monitoring of Vehicle using CCTV cameras. (Prototype Developed)

Tech Stack : Python, Machine Learning, YOLOv8, PHP, HTML / CSS

AI SQL Driven Insights

INDUSTRY PROJECT - EZOFIS (TIRUNELVELI, UAE AND CANADA)

Description : Generates SQL Queries for the given NL input. (User Interface version developed)

Tech Stack : Python, NLP, Transformers, SQL.

CEMENT BAG COUNTING

INDUSTRY PROJECT - RAMCO CEMENTS LIMITED(ARIYALUR - TAMILNADU)

Description : Counts the cement bag using CCTV cameras to overcome noisy count sensors.

Tech Stack : Python, Yolov8, Data Analysis (Labeling data)

RAW MATERIAL PREDICTION

Description : Predicts and forecasts the availability of the raw material using the day_out datas of current availabilty.

Tech Stack : Python, Machine Learning, Front-End.

CANCER DETECTION USING KOLMOGROV'S ARTIFICIAL NEURAL NETWORK

Description : Usage of Kolmogrov's Arnold Theorem in the ANN for the detection of Leukemia cells to prove the accurate against default ANN.

Tech Stack : Python, Machine Learning, Deep Learning.

MINI PROJECTS

- Lyre Bird Optimization Technique
- Network Monitoring System using Python
- Time Series Analysis For Univariate, Bivariate and Multivariate using Python

CERTIFICATIONS

- Microsoft PowerBi Associate - ICT Academy
- Introduction to Deep Learning - DeepLearning.AI (Coursera)
- Exploratory data Analysis with Python 3.x - UDEMY
- Networking Essentials - Cisco Networking Academy
- Basics of Python - UDEMY
- ARTIFICIAL INTELLIGENCE - Accenture
- Django Framework - Eduprep
- Big Data with Spark / Hadoop - Coursera
- Foundation of Data Science - Google
- Data Analytics Essentials - Cisco Networking Academy
- Cyber Security - Cisco Networking Academy

PARTICIPATIONS

- Advanced to the **final round of the ML Bootcamp** Hackathon at **Anna University's Kurukshetra** event, showcasing skills and dedication.
- Honored to **progress to the final round of the IDEATHON** at the **INAE SERB Youth Conclave hosted by GITAM** Vishakhapatnam.
- Participated in the **Technovista 2024** and got selected for the final round in project presentation and **secured a prize**.

SKILLS & INTERESTS

- Languages : Tamil, English, Hindi.
- Effective Communication
- Resourceful
- Critical Reasoning
- Team Collaboration
- Quick to Adapt
- Continuous Learner
- Interests : Music, Art, Travel.

CO-CURRICULAR ACTIVITIES

- A one-day technical seminar on "Career Path in Computer Networks: Advanced Networking Technology & Physical Layer.
- An informative seminar focused on "Data Lake and Analytics in Amazon Web Services."
- An engaging session exploring "Trends and Opportunities in Artificial Intelligence and Data Science."
- Had the privilege of leading the **Neoteric AI Association** as a **president**, facilitating workshops, competitions and interactive sessions alongside industry leaders.
- Member in ISTE and ASI.
- Attended an International Conference on "AI in Emerging Technologies" hosted at GITAM University, Vishakapatnam.
